

LAB 2 – JIRA HANDS-ON

Agile Backlog Creation & Sprint Simulations

Project: Personal Subscription & Recurring Expense Auditor

NAME	SRN	SECTION
PRARTHANA SHIVAKUMAR	PES1UG24CS339	F

1. Agile Backlog

3 Epics and 7 User Stories were created from the functional requirements used in Lab 1. The stories were given priorities and story points.

Epic	User Story	Priority	Points
Transaction Import & Subscription Analysis	Import Transactions	High	3
Transaction Import & Subscription Analysis	Identify Recurring Subscriptions	High	5
Transaction Import & Subscription Analysis	Calculate Subscription Expenditure	High	3
Subscription Monitoring & Alerts	View Renewal Dates	High	3
Subscription Monitoring & Alerts	Renewal Alert	High	3
Expense Management & Cancellation	Monthly Burn Rate	Medium	5
Expense Management & Cancellation	Cancellation Guide	Medium	3

2. Sprint Plan

Sprint 1: 4 stories, 14 story points, 1 week.

Sprint 2: 3 stories, 11 story points, 1 week.

3. Sprint Execution

The stories were moved through **To Do** → **In Progress** → **Done** during both sprint simulations. Both sprints were completed.

4. Reflection

1. Did your estimations reflect actual effort?

Yes. The points gave a reasonable idea of the effort. The larger tasks like Identify Recurring Subscriptions and Monthly Burn Rate were given 5 points, while smaller tasks were given 3 points.

2. Was your backlog well-prioritized?

Yes. The main functions were given high priority while monthly burn rate and cancellation guide were kept at medium priority.

3. How did your simulated sprint align with your plan?

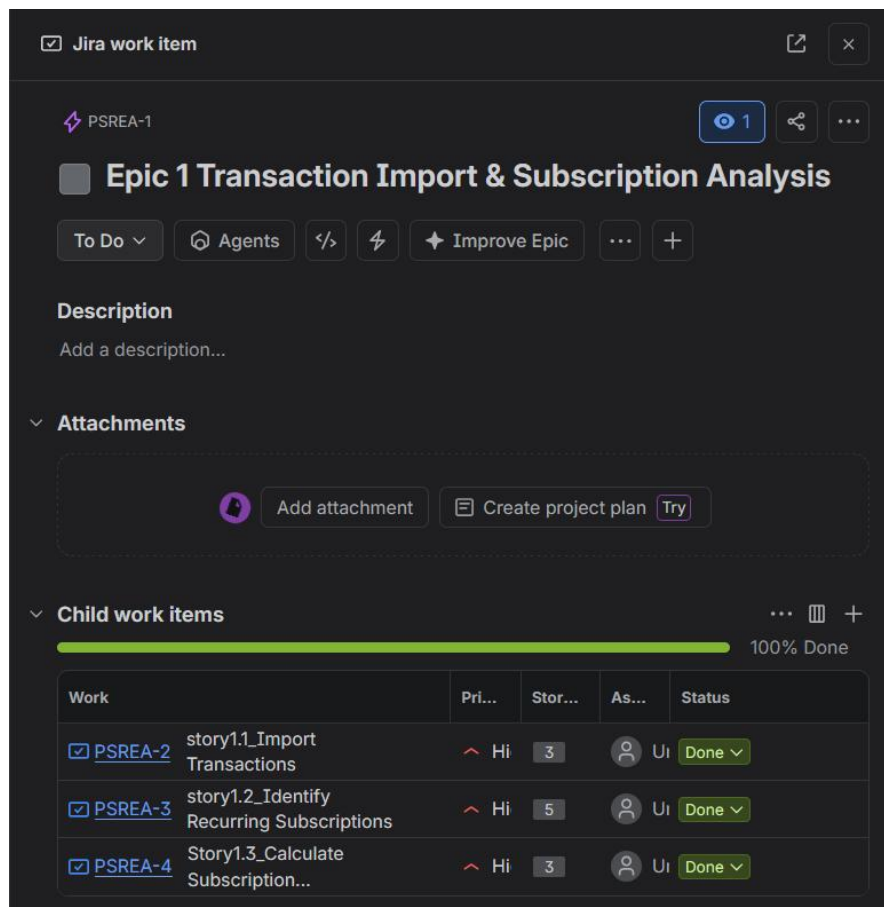

The sprint went according to the plan. Sprint 1 covered the main subscription analysis tasks and Sprint 2 covered the remaining tasks. Both sprints were completed successfully.

4. What insights did the burndown chart give about team capacity?

The burndown charts showed that the team was able to complete all the planned work in both sprints. Sprint 1 completed 14 points and Sprint 2 completed 11 points, showing that the team could handle around 11–14 story points in a sprint.

5. Jira Evidence Screenshots

Epic 1 with its three completed User Stories

The screenshot displays a Jira work item interface for an Epic. At the top, it shows the Epic ID 'PSREA-1' and a title 'Epic 1 Transaction Import & Subscription Analysis'. Below the title, there are buttons for 'To Do', 'Agents', and 'Improve Epic'. The 'Description' section is currently empty. The 'Attachments' section is also empty. The 'Child work items' section shows a progress bar at 100% Done and a table of three completed User Stories.

Work	Pri...	Stor...	As...	Status
PSREA-2 story1.1_Import Transactions	Hi	3	Ui	Done
PSREA-3 story1.2_Identify Recurring Subscriptions	Hi	5	Ui	Done
PSREA-4 Story1.3_Calculate Subscription...	Hi	3	Ui	Done

I forgot to take a screenshot of the backlog view and the active sprint before I completed my sprint 1 and hence I have provided sprint reports instead

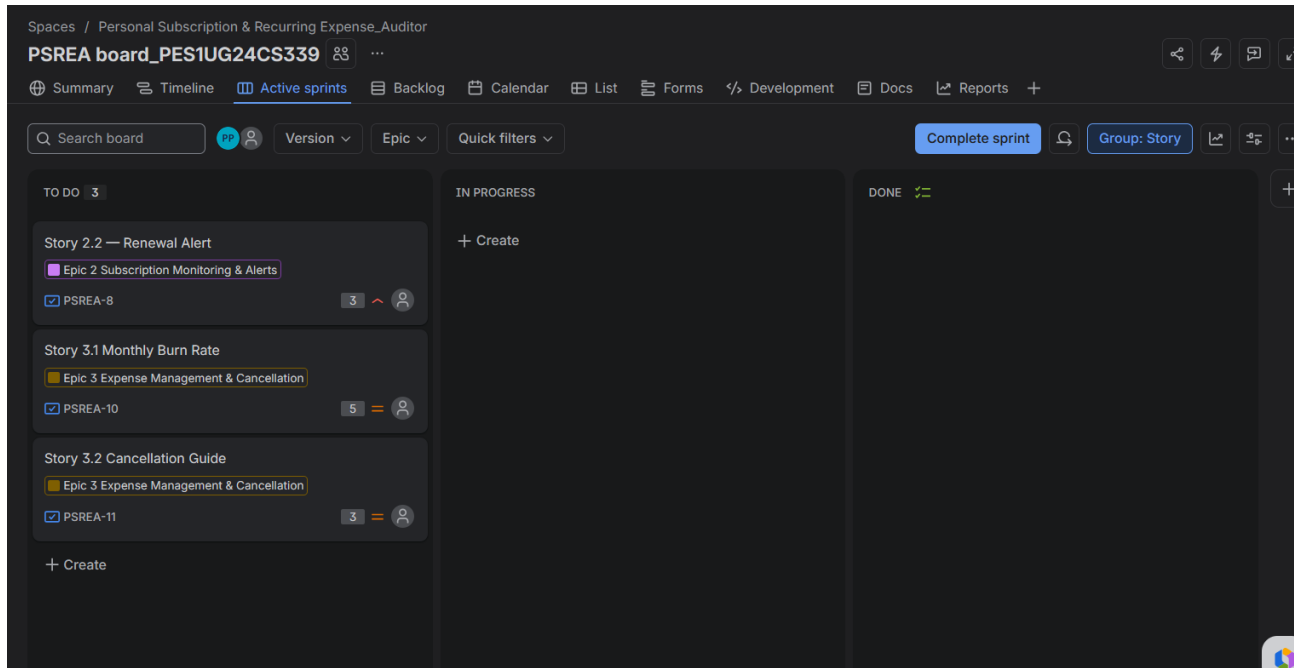

Sprint 1 report and completed issues

Sprint 2 report and completed issues

Active Sprint board showing Sprint 2 work in to do

Jira Backlog showing the remaining backlog and Epics after sprint 1
